

NEUROCLIMA

Developing and assessing novel educational and user-centred actions towards scaling up behavioural change and climate resilience through an AI-enhanced solution

Jan 2024 - Dec 2026

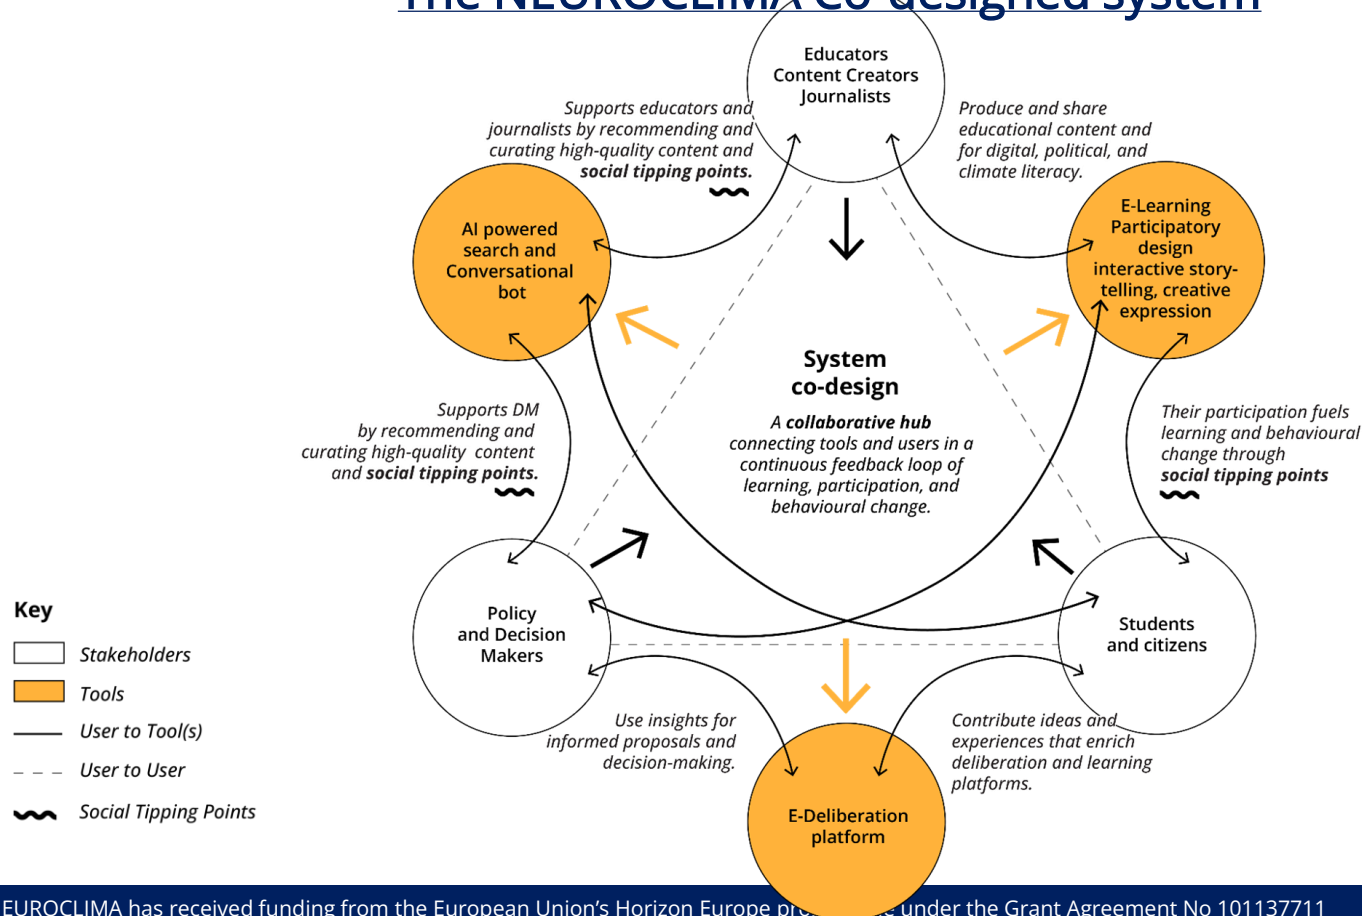

Funded by
the European Union

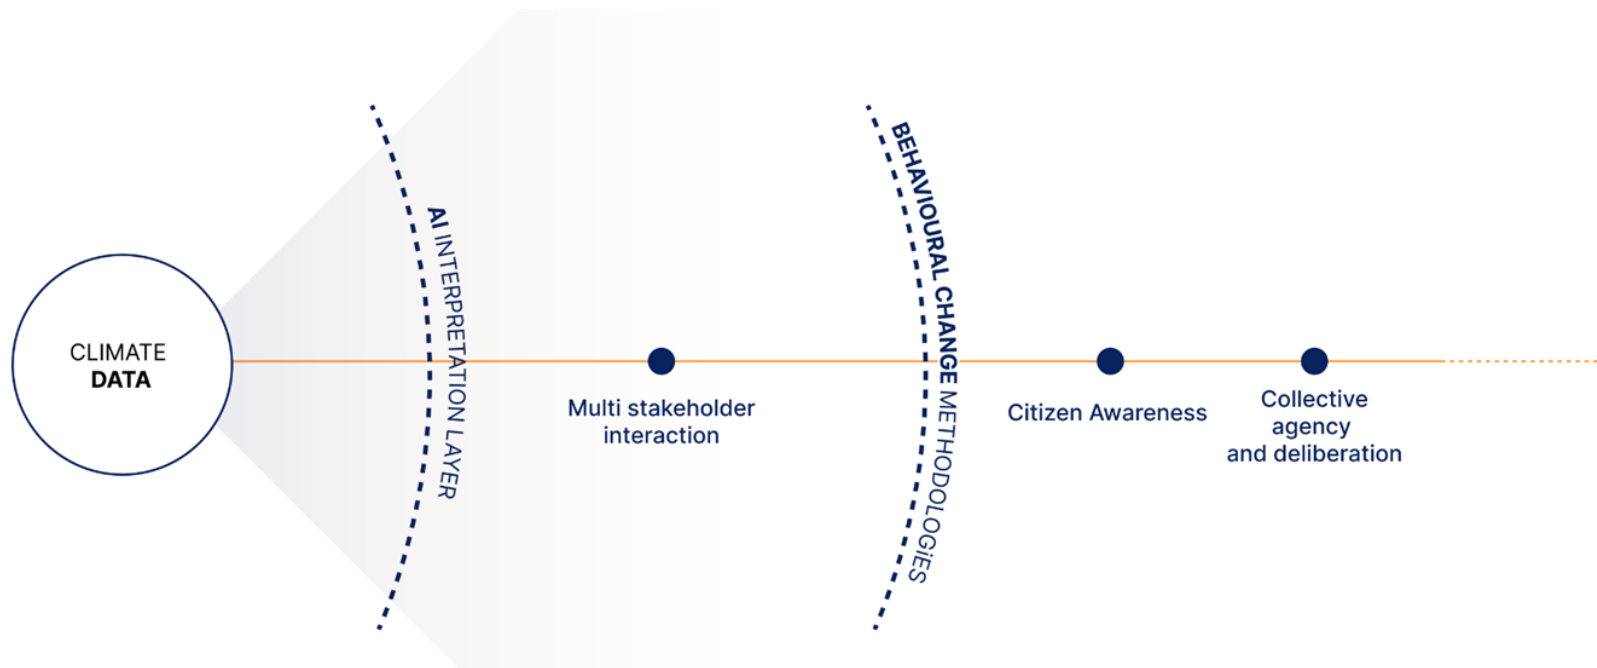

NEUROCLIMA has received funding from the European Union's Horizon Europe programme under the Grant Agreement No 101137711

NEUROCLIMA aims at establishing a novel solution for supporting and sustaining systemic transformations and citizen engagement towards climate resilience by creating a nervous system that connects policymakers, public institutions and citizens, based on AI-enhanced decision-making support.

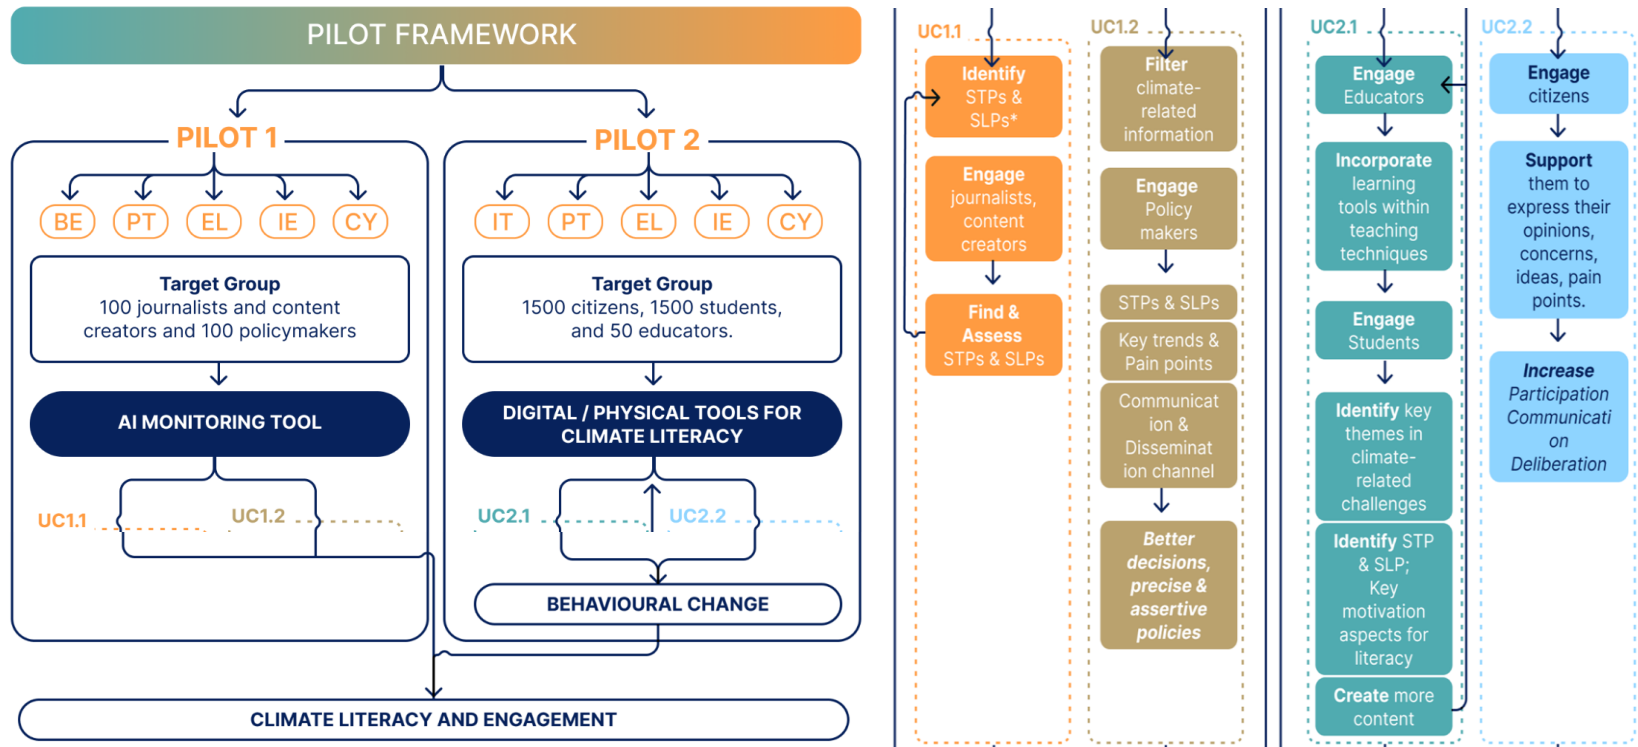

The NEUROCLIMA Co-designed system
